

Anith K N

Professor of Microbiology,
 Department of Microbiology, College of Agriculture, Vellayani
 & Director of Research
 Kerala Agricultural University,
 Thrissur 680656, Kerala, India
 e-mail: anith.kn@kau.in
 mob: + 91-9446413861

Citizenship : Indian
Date of Birth : 25th May 1969
Gender : Male

Academic Qualification:

| Degree | University/Institution | Year | Subjects | Grade (OGPA) |
|----------------------|--|------|----------------------|--------------|
| Ph.D | Indian Agricultural Research Institute, New Delhi, India | 1997 | Microbiology (major) | 3.72/4.00 |
| M.Sc | Indian Agricultural Research Institute, New Delhi, India | 1993 | Microbiology (major) | 3.74/4.00 |
| B.Sc. (Agri.) | Kerala Agricultural University, Kerala, India | 1991 | Agriculture | 8.5/10.0 |

Title of Ph.D thesis : Molecular basis of antifungal activity of a fluorescent Pseudomonad

Postdoctoral training: North Florida Research and Education Centre, **University of Florida, USA** in the area of plant-microbe interactions. (March 2002- March 2003)

Areas of research interest: Plant-microbe interactions, biological control of plant diseases

Employment details

| | |
|-------------------------|---|
| 2012 April to till date | Professor, Kerala Agricultural University |
| 2006 April – 2012 April | Associate Professor, Kerala Agricultural University |
| 2003 March – 2006 April | Assistant Professor, Kerala Agricultural University |
| 2002 April – 2003 March | Visiting Scientist, NFREC, University of Florida, USA |
| 1997 April – 2002 March | Assistant Professor, Kerala Agricultural University |

Major research achievements:

- Isolated, characterized and developed the biocontrol bacterial strain *Pseudomonas fluorescens* PN026, currently being commercially distributed by Kerala Agricultural University
- Developed a fungal-bacterial co-culture system in a single fermentation vessel, involving the beneficial endophytic fungus, *Piriformospora indica* and plant growth promoting bacterial strain *Bacillus pumilus*
- Devised a rapid and effective screening procedure for selection of efficient bacterial antagonists against the black pepper foot rot pathogen, *Phytophthora capsici*
- A coconut water based, farmer-friendly field level multiplication method for the biocontrol bacterium *Pseudomonas fluorescens* was developed
- A coconut water based liquid bioformulation for *Pseudomonas fluorescens* was developed
- Devised *in vitro* screening methods for testing antagonism of one or a couple of bacterial biocontrol isolate(s) against multiple fungal phytopathogens in a single agar plate

Publication credentials

1. Authored 68 Scopus indexed research publications with 799 citations (<https://www.scopus.com/authid/detail.uri?authorId=57224335155>)
2. Highest *h* index in Scopus among the scientists currently working in KAU
3. 1501 citations with an *h* index of 23 in Google Scholar (<https://scholar.google.com/citations?user=j41jFA4AAAAJ&hl=en>)

Fellowships and awards received:

- 1991-1993 Indian Agricultural Research Institute- Junior fellowship for M. Sc in Microbiology
- 1993-1997 Indian Agricultural Research Institute- Senior fellowship Ph. D in Microbiology
- 2002-2003 BOYSCAST (Better opportunity for Young Scientists in Chosen Areas of Science and Technology) fellowship instituted by Department of Science and Technology, Government of India to do post-doctoral research abroad (University of Florida, USA).

Research Projects: Completed

1. Exploitation of the endosymbiotic fungus *Piriformospora indica* for biotic and abiotic stress management in black pepper (*Piper nigrum* L.). Funded by Kerala State Council for Science Technology and Environment, Government of Kerala, India
2. Role of bacterial endophytes in plant defense mechanisms against *Phytophthora capsici* in black pepper (*Piper nigrum* L). Funded under Department of Science and Technology, Government of India
3. Development of bacterial endophytes for insect pest management. Funded by Kerala Biotechnology commission, Kerala State Council for Science Technology and Environment, Government of Kerala, India
4. Exploitation of bacterial endophytes of *Piper* spp. from western Ghats for the management of *Phytophthora capsici* infecting black pepper (*Piper nigrum* L.). Funded by Western Ghat Development Program, Government of Kerala.

Research Projects: Ongoing

1. Network project on Utilization of Beneficial endophytes for plant growth promotion and management of plant diseases in important crops of Kerala. Funded by Planning Board, Government of Kerala.
2. All India Network Project on Soil Biodiversity and Biofertilizers. Funded by Indian Council of Agricultural Research.

Student Guidance (As Major Advisor):

M.Sc: Completed: 16 **Ph.D:** Completed: 1 On-going: 5

Courses Taught:

- UG:** Agricultural microbiology (2+1)- Odd Semester
- PG:** Principles of Microbiology (3+1)- Odd Semester
Microbial Physiology and Metabolism (3+1)- Odd Semester
Microbial Genetics (2+1)- Even Semester
Food Microbiology (2 +1)- Even Semester
- Ph.D:** Advanced Microbial Physiology (2+0) -Even Semester
Current Topics in Soil Microbiology (2+0)- Odd Semester
Plant Microbe Interaction (3+0)- Odd Semester

Other activities responsibilities

1. Currently holding full additional charge of Associate Director of Research, Regional Agricultural Research Station (Southern Zone), Vellayani from 05.09.2022
2. Worked as Assistant Warden of Undergraduate Men's hostel from 2003 to 2012
3. Currently Chairman of committee to monitor "Prevention of Caste-based Discrimination in Higher Education Institutions" at College of Agriculture, Vellayani campus.

Membership in Professional Associations

1. Three Year full Global Outreach membership in International Symbiosis Society (starting March 2022).
